Exercise 1

Attain some familiarity with the way functions are selected from namespaces

We used the following code,

main.cc

```
1  #include <iostream>
2
3  int main() {
4      std::cout << "Hello, Klaas!" << std::endl;
5      return 0;
6  }
```

Exercise 2

Exercise 3

Exercise 4

Exercise 5

Exercise 6

Exercise 7

Exercise 8

Exercise 9

Exercise 10
